POETRY.

THE RAINBOW.—BY FELICIA HEMANS.

"I do set my bow in the clouds, and it shall be for a token of a covenant between me and the earth."—*Gen.* ix. 13.

Soft falls the mild reviving shower
From summer's changeful skies,
And rain-drops bend each trembling flower,
The tinge with richer dyes.

Soon shall their genial influence call
A thousand buds to-day,
Which, waiting but that balmy fall,
In hidden beauty lay.

E'en now full many a blossom's bell
With fragrance fills the shade;
And verdure clothes each grassy dell,
In brighter tints arrayed.

But mark! what arch of varied hue
From heaven to earth is bowed:
Haste! ere it vanish, haste to view
The rainbow in the cloud!

How bright its glory! there behold
The emerald's verdant rays;
The topaz blends its hue of gold
With the deep ruby's blaze.

Yet not alone to charm thy sight
Was given the vision fair;
Gaze on that arch of colored light,
And read God's mercy there.

It tells us that the mighty deep,
Fast by the Eternal chained,
No more o'er earth's domain shall sweep,
Awful and unrestrained.

It tells that seasons, heat and cold,
Fix'd by his sovereign will
Shall, in their course, bid man behold,
Seed-time and harvest still.

That still the flower shall deck the field,
When vernal zephyrs blow;
That still the vine its fruit shall yield,
When autumn sunbeams glow.

Then, child of that fair earth! which yet
Smiles with each charm endowed,
Bless thou His name, whose mercy set
The rainbow in the cloud!

From the West India Sketch Book.

——Captain Dove was as devoted to his Venus, night and day during the gale, as if it had been the period of her accouchement. He occasionally seated himself on a cherry-tree chair, which was fastened to the weather-side of the quarter-deck, and,

"With replenish'd pipe and oft repeated draughts,
He'd watch the motions of his ocean queen."

"That's right, my little beauty," he would say, as she raised her head high on the buoyant waves; and then addressing the helmsman, as she descended into the foaming trough, "mind your weather-helm now—e-a-s-e her, ease her, that's right—there she goes like a duck, bless her little heart—boy, a glass of gin and water—meet her again—there—just let her go her own way, only ease her now and then—don't gripe her—she'll go like a race-horse, if you let her alone, but she kicks if you give her spoke too much—forecastle, there! take a pull of the foresheet—mind what your'e about—don't yaw her about so—treat her kindly, can't you?—you may do any thing with her with kindness; how's her head now?" "Norwest and by west," replied the helmsman. "Well done, my little darling—she's the prettiest ship that ever came out of the kingdom of heaven—boy, a glass of gin and water." Really sailors are very odd sort of men, their aquatic habits engraft upon them peculiarities which never fail to distinguish them from the rest of mankind: the howling of the tempest affects not them; they take their watch and watch, and sleep in their coffin more soundly, rocked by the buoyant billows, with Death for a bedfellow—a plank only between them, than a prince on a bed of down. Their benevolence and kindly feelings are proverbial; superinduced probably by a mutual dependence upon each other, by a companionship in fortune and in peril, whence their virtues and their foibles, and their sympathies, become interfused; and the little community in which they are accustomed to move assumes more the character of a large family, than of a society composed of all the discordant elements which mark communities in general.

Negroes.—Their curiosity is not to be controlled; and so seldom do they manifest any thing like diffidence towards their masters, that even their respect partakes of an air of familiarity. We were engaged one moonlight night in the front of our dwelling, in taking an altitude of a star, and several negroes were drawn to the spot by curiosity. At length one of them said, 'Massa, wharra you do da?' 'I'm going to put the moon into the sea,' we replied. 'Eh, me Gad,' they exclaimed simultaneously, and for our own credit we were obliged to produce ocular demonstration, by allowing one of them to look through the quadrant, which we held in our hand. We had no sooner brought the reflected figure of the moon to the horizon, than he bolted as fast as his legs could carry him, without heeding the laughter of his companions, one of whom immediately desired to have his curiosity gratified in the same way.—He, however, tried the experiment with some share of distrust, and as soon as he beheld the figure of the planet in the same position, instead of following the example of the first negro, he walked slowly from our side, like a man anxious to make good his retreat without the imputation of cowardice; and, as if deriving security from a compliment, he exclaimed, 'Me Gad, massa, you really clebber! wharra you no can do?'

MONDAY, JULY 21, 1834.

Another Bank Outrage.—The Washington Globe of Thursday confirms the rumor which has been for several days in circulation, that the Bank had seized on a portion of the dividends on the Government stock to cover the pretended damages it claims on the protested French bill, stated in the Bank's return to Congress, to be $158,842,77. Setting aside the facts that there is no equity in this claim, and that the Bank never sustained the damages asked for, nor any portion of them, this act, considering the relative situation of the Government and the Institution, is one of unparalleled audacity.

The Globe states that the price the Bank stipulated to pay for this bill, *was never paid*—that it remained in the Bank, and was used by it, during the whole period of the absence of the bill—that, although it might have been credited to the Treasurer on the books of the Bank, it was never recognized by him, by bringing it upon his own books—and that, upon the return of the bill, the matter was adjusted by taking from the Treasurer's account, on the books of the Bank, the credit which had been given him. The Bank never paid the bill—was not deprived of the use of a dollar of it funds by its purchase—and never advanced a dollar to take it up in Europe. During the four months covered by this transaction, the average amount of public money in the vaults of the Bank, exceeded *nine millions* of dollars, of which it had the free use—and yet it has the hardihood to seize on the public money, without the color of law or justice, to satisfy a claim for pretended damages, which, in fact, were never sustained.

Even admitting the validity of the Bank's claim, the circumstances attending its enforcement are of a most extraordinary character. The claim was first made in May, 1833, when it was refused a recognition by the Treasury Department. Since that time the Bank has twice declared a dividend, and the Government's proportion has been as often paid into the Treasury. Congress is the only body having power to allow this claim; and yet, during the long session which has just closed, no communication upon the subject was made to that body, and no adjustment of the claim asked or demanded. But immediately after its adjournment, Mr Biddle asks of the Secretary of the Treasury—who has no authority to pay the demand—what is the final determination of *the Government* in regard to it. And upon being told, in reply, that the views of the *Treasury Department* remain unchanged, he attempts to take the law into his own hands, and to pay himself out of the monies of the Government in the possession of the Bank! During the same day in which this resolution on the part of the Bank was communicated to the Secretary of the Treasury, he was officially informed, that it was *in contemplation to set up a claim for damages for the removal of the deposites!*—a removal which was, at the time, sanctioned by a very large majority of the people; and the justice of which has been made more and more apparent by every subsequent measure of the Bank. A removal which will purchase for its bold projector, the gratitude of the whole country—and which will, we trust, be a lasting blessing to that country, by assisting to crush a monied monster, whose existence would have proved her bane, and the utter destruction of her free institutions.

The Last Supper.—We are surprised that this groupe has not attracted more of public attention and patronage, for its merits, as a specimen of art—to say nothing of the great event it is intended to represent and commemorate—render it really deserving a large share of both; and we can conceive of no reason why, in a city justly famed for its refinement and taste, the proprietor of this beautiful work should find the labor of years, and a large investment of capital, entirely unproductive of pecuniary profit. If there are any persons who believe this groupe bears any resemblance, in style or execution, to the wretched libels upon humanity, which are hawked about the country, they are egregiously mistaken. The figures are the work of an artist, who has successfully attempted so to form and cast the countenance of each, as to make it strikingly expressive of the character of the individual it is intended to represent. This exhibition is soon to be closed; and we advise those who have not already visited it, to lose no time in patronizing so deserving an undertaking.

We learn from the Farmer's Gazette, published at Barre, Mass., that Mr. Buckingham, of the Courier, has been prosecuted by Mr. Greene, of the Morning Post, for alibel!!!—*Trans.*

This is news to us. We hope the editor of the Barre paper willl give due attention to the suit he has originated, and forward us the damages at his earliest convenience, retaining 10 per cent. commission for his trouble.

A new order of things.—The Boston Daily Advocate, states that the Citizens Stage Coach Company lost *fifty* horses by heat in *January* last, and that they had *not* lost *one* during the excessive heat of the last week.—*New Bedford Gazette.*

We see nothing new in the "order of things" set forth in the announcement of the Advocate. The *heat* by which the horses perished in *January*, was caused by the burning of a large barn, and its contents, and may reasonably be supposed to have exceeded the heat of the recent hot weather.

The editor of the Woodstock (Vt.) Whig feels himself much scandalised by a report that he had attempted to commit suicide, which report was first suggested to Madam Rumor by a "mysterious article" published in the hebdomadal of his neighbor, the Courier. The editor of the Whig resents the imputation of malice afore thought against his own bodily, mental, and spiritual prosperity, with becoming spirit, and occupies a whole column of his paper in proving how unreasonable it was to suppose he could be guilty of a felonious attempt upon his own life. He means to live as long as he can, conveniently—and does not mean to die by his own hands, even when his time comes.

Mr Ellmaker, who was confirmed by the Senate at its late session, as a Director of the U. S. Bank, has given official information to the Government that the Bank had refused to recognize him in his official capacity, because he was not a stockholder on the day his commission was dated.

Capt. Alden Partridge has been nominated as a Representative in Congress from one of the districts in Vermont.

MUNICIPAL COURT.

[Principal Sentences announced on Saturday, July 19.]

Patrick Foley, for an assault, with intent to commit a rape, 4 years in the State Prison. Foley, who is better known by the appellation of the "Hump-Back Fiddler," about 5 o'clock, on the morning of the 1st of June, entered a boarding house, opposite to the one in which he resided, and, passing up stairs, deliberately walked into a room, where a lady was in bed; he then very quickly divested himself of his clothing, and sprang into the bed. For an instant the lady was so much terrified, as to be unable to raise an alarm; but as soon as her spirits rallied, she commenced calling for assistance. when he partially silenced her outcries by forcing some bed clothes into her mouth. A gentleman, who slept on the same floor, described the distressed sounds which she then uttered, as resembling those of a person in the death struggle; but, from motives of delicacy, he hesitated to enter her apartment. When the landlady of the house finally came to her assistance, she was so much exhausted by the struggle and terror, as to be unable to explain the cause of her alarm. Foley was first put on trial in June, and, as at the present term, the defence of insanity was set up, and the first jury could not agree, one juror dissenting from a verdict of guilty. But on the second trial, notwithstanding an extremely able defence by Col. Moore,—and so pronounced, by Judge Thatcher,—the jury promptly returned a verdict against him.

Henry C. King, for stealing a $10 bill from Josiah French, six months in the House of Correction. King saw French, at a confectioner's window, and "as he looked pretty good natured, as he thought, he asked him to treat," though he had never seen him before. French then invited King to walk into the shop, and called for two glasses of noyeau, and took out a $10 bill to pay for it with. The attendant at the bar could not change the bill, and, knowing French, offered to trust him; but King took the bill out of French's hand, and said he would go and get it changed, and refused to stop when French called him back. French then caught hold of the skirt of King's coat, and followed him down the street, when he turned upon him, and struck at him. Stark, the watchman, being at hand, put an end to the encounter by taking King into custody.

John Goodale,—stealing cloth, gloves, &c., to the value of about $25, from E. T. Weatherbee's store, 9 months in the House of Correction. This lad was in Mr. Weatherbee's employ as a clerk, at the time. The jury after giving their verdict, stated to the court, that they considered he had been led into the commission of the crime, by another person. The person alluded to, was a clerk in an intelligence office, who offered to sell Goodale a patent lever watch for $25, and told him that he would take his pay in cloth, and suggested to him to take it out of the store, without saying any thing to Mr. W. and pay for it privately, when he could, as such things were often done. Goodale took the bait, gave the broker of intelligence *sixteen dollars* worth of Mr. W's. broadcloth, and a note for $8, and received in return the "*patent lever*"....warranted by good judges to be worth *four dollars* at the utmost!!

Thomas J. Pelham, for breaking open the American Fire King's trunk, and stealing $595, and sundry notes and receipts therefrom—1 year in the House of Correction. The sentence light, in consequence of his admitting the money to be the King's, and making no opposition to its being restored to his majesty.

Rioters.—John Redding, 1 year in the House Correction; John Connor, ditto; Patrick O'Brien, ditto; Brient Courtney, ditto; James Barry, 7 months; John Caughlin, 5 months; and James Hyde, 3 months; all for rioting in the streets, *resisting* constables in the discharge of *their* duty, and rescuing prisoners.

John Sweeney, for stealing a watch, from the pocket of *Lewis West*, in a fight which he commenced in a cellar, probably with a view to commit the theft, 2 years in the State Prison—and for an assault on Samuel Bowden, a watchman, on the same occasion, 6 months in addition to the preceding 2 years.

Henry Lane, common drunkard, &c., *two* months in the House of Correction. Lane was convicted upon this charge, in the Police Court, and sentenced to *one* month, but appealed to the Municipal Court, where he was politely accommodated to a double dose.

James Wilson, knocked down —— Webster, in Battery March Street, in the night time, and attempting to rob him; but finding nothing in his pockets, he contented himself with Webster's hat, with which he ran off.—Six months House of Correction.

Ebenezer Jackson, a boy, stealing money and a watch, in a boarding house, four years in the House of Correction. From the evidence, it appeared that the thieving propensity was deeply rooted in the prisoner.

Prosper Cutler, passing counterfeit bills, found guilty on *two* indictments, 4 years in the State Prison.

Aaron Perkins, a colored man, for escaping from the House of Correction, three months additional.

The New York papers are making themselves exceedingly merry in commenting upon an expected rencontre between *Pop Emmons* and *Bran-bread Graham*—the former having gone down-east to "beard the lion in his den," and provoke a public discussion of the relative merits of their theories and practice. We know but very little about *Graham*, but are satisfied that Pop will die "game to the last;" and we have made up our mind to hear that he has conquered, or "perished in the attempt." We will go two to one on the Boston boy, at any rate—and if he will pledge himself to throw in a few pages of the Fredoniad, at proper intervals during the engagement, we will back him at any odds. If the Orator gets worsted, we shall send down the sea serpent forthwith, directed to the care of Jack Downing, or his "proud representative."

A young woman attempted to drown herself on Friday, by jumping into the water from the Mill Dam. She was rescued by Mr. Robert Artice, an attendant at the bath houses, who plunged in after her, and, at great hazard, supported her until a boat went to his assistance.

A meeting was held at Tammany Hall, New York, on Thursday evening for the purpose of organizing a corps of "Municipal Foot Guards," to render assistance to the city Magistrates whenever additional forces shall be necessary to quell disturbances and preserve the peace of the city.

Three Days Later from England.—The packet ship Virginian, Captain Harris, arrived at New York on Saturday, bringing Liverpool papers to the 7th ult, and London to the 8th. They do not contain any political news of consequence.

A call had been made upon Lord Grey in the House, relative to the affairs of Portugal, the particulars relating to which he intended to submit during the session.

Mr Alexander Baring presented to the House of Commons a petition signed by 23,000 merchants, bankers, and other inhabitants of London, praying for the removal of the political disabilities of the Jews.

Lord Grey, in a speech on the Irish tythe bill, since the change in the ministry, clearly indicated by his conciliatory tone, that he considers himself, in a measure, at the mercy of the conservative party, and tory lords.

The new ministers have all been sworn in, and kissed hands. The Times comments with much severity on the late declaration of the king, on his speech to the bishops, "that he held himself responsible to no earthly tribunal."

Accounts from Warsaw to the 20th, state the increase of the Bank of Warsaw from 30 to 42 millions for the purpose of aiding agriculture and trade, and the establishment of grain magazines on the Vistula.

Affairs of Portugal.—The affairs of this distracted kingdom will now be speedily and happily adjusted. "It is clear that public opinion is now more favorable to Don Pedro than it has ever been since his arrival in Portugal. Even the ministers, by agreeing to the quadruple treaty, have redeemed a great part of the feeling that existed against them. Don Miguel had ordered, five months ago, that all the money remaining in the divers depots of all the provinces should be carried to Elvas, so that the government of the young Queen will there find considerable treasure. It is supposed that Don Miguel will proceed in a British sloop of war to Leghorn, and not, as was supposed, go to Englaud. So long ago as the 14th of May, Don Carlos wrote to Admiral Parker for permission to embark in an English man of war for Italy."

Liverpool Market, June 6—Cotton.—We have had an increased demand for cotton this week, with extensive sales at very full prices, and grea steadiness in the market; the lower qualities of American have nearly recovered their previous depression, and Bahias the decline noticed last week. Speculators have taken 3000 bales of American, and exporters 800 American and 700 Surat. Nothing of consequence to notice in Carolina rice. No sales of turpentine have taken place, and prices remain without alteration. In American tar no transactions have occurred. The markets for Montreal pot ashes is steady at 24s—50 to 60 bbls Montreal pearl ashes brought 25s 6d, for the brand of 1833, and 24s and 6d for that of 1832. Quercitron bark goes off very slowly, a few hhds Philadelphia have been disposed off at 8s 6d per cwt. Nothing done in flaxseed or olover seed. There has been a speculative demand for tobacco, and 240 hhds of Virginia leaf, with 50 of stemmed have been taken for that purpose—65 hhds of Virginia stemmed, 10 of leaf, and 25 of Kentucky stemmed have gone to the trade—10 of Virginia leaf for Scotland, and 12 ditto for exportation—the market is rather firmer. Wheat and flour, in bond, are without alteration.

London Markets, June 6.—Foreign Sugar—The public sales of 558 boxes Havanna on Tuesday went off heavily, much about the previous prices; brown 23s 6d, yellow 24s*a*25s, low to fine white, 27s 6d *a* 3s. Foreign and East India Coffee remain heavy at the former quotation, with the exception of Mocha, which must be quoted 1s 6d higher. Spices—Pepper is 1-8 higher, 4652 bags black and 20 bags white were offered at public sale, ord half heavy sold 3 1-4d, and 3 3-8 d, good half heavy 3 1-2d*a*3 3-4d, heavy 3 7-8d*a*4d, good grevish white 6 3-4d, fine 7 3-4d. Cassia Lignea has again advanced 4s*a*5s. Pimento steady; 841 bags at public sale, fine 4 3-4*a*4 7-8d, ord to mid 4 3-4d*a*4 5-8. 50 boxes Cassia, mid sold at 67s. This day's public sale 1211 pockets East India Ginger sold 27s6d*a*28s, rather lower, 400 bags pepper at the advance we have stated. This day's pul lic sale 1942 pockets Turmeric, all sold at 15s.

Late and Important from Peru.—We have been favored with the following extracts of letters from Lima, giving an account of the defeat of Gen. Bermudez, and the capture of his whole army.

LIMA, April 28, 1834.—On the 26th inst., we received the important intelligence of the surrender of all Bermudez' troops at Huancuyo, about 1200 men, to the President, and we hope this may decide the contest in favor of the Constituted authorities, and restore us again to tranquillity. People are too busy in rejoicing to think of business yet, but we hope they will turn their attention to it in a few days.

We learn from a passenger, on board the brig Poland, arrived yesterday, from Trinidad de Cuba, that a few days before she sailed, a Spanish man of war looking brig arrived, and reported from St Thomas. It was generally believed, that the night previous, she had landed, a few miles to the eastward of the port, about 100 slaves, from Africa. About the time the brig was ready to sail from Africa, several of the slaves escaped, which so exasperated the commander, that he secured and made hostages of several of the chief's household, determined not to release them until the deserters should be given up. He succeeded in regaining all but six or seven; but still retained the hostages. This so enraged the inhabitants, that they put the captain to death. The hostages seeing this from the brig, and fearing that they would be put to death by the crew, jumped overboard, and two or three only reached the shore. The mate forthwith took charge of the brig, and set sail. This information was given by one of the crew.—*N. Y. Gaz.*

Loss of the British Brig Aurora.—The brig Statira, Captain Hubbell, arrived this morning from New Orleans, fell in, on the 10th inst. off Tortugas, with the boats of the British brig Aurora, Crowell, from Kingston, Jamaica, for St Johns, N. B. Took Capt. C., mate, and four men on board of the Statita. Seven of the crew refused to go on board; they took the boat and proceeded for Havana. The Aurora struck on the Tortugas on the 7th; the captain and crew made every exertion to get the brig off, by heaving overboard part of her cargo. When they left her, her stern-post was knocked out, and she had eight feet of water in her hold. The captain and crew had been four days in the boats when taken on board. The vessel and cargo will be a total loss—the cargo consisted of sugar, rum, coffee, and pimento.—*N. Y. Com.*

From Key West to the 15th June, accounts have been received, which state the continued healthiness of that place The barque Salem of this city, from New Orleans for Havre, with a full cargo of cotton, got ashore near where the light ship was stationed. After remaining two or three days, the captain thought it advisable to throw overboard 200 bales, for the purpose of getting his vessel off, which he accomplished. 197 bales of the cotton had been picked up by the wreckers, who carried it in, and would libel it for salvage.—*N. Y. Star.*

The Mormons.—The following note from the Post Master at Independence, Jackson county, is all the information we have upon this subject. We consider that the whole matter may be set down as settled.—*Fayette (Miss.) paper.*

"*Independence, June* 27, 1834.—Dear Sir—The Mormons have backed out of the expected fight, but yet say this is "ZION," and that it may not be established for one hundred years to come. I think they could not be hired to come to this country."

A Mormon Battle.—A letter has been received at Chardon, Ohio, direct from Missouri, which states that a body of well armed Mormons, led on by their great prophet, Joe Smith, lately attempted to cross the river into Jackson County. A party of the citizens of Jackson county opposed their crossing, and a battle ensued, in which Joe Smith was wounded in the leg, and the Mormons obliged to retreat; that Joe Smith's limb was amputated, but he died three days after the operation.

Naval.—The N. S. Ship St Louis, Captain Newell, arrived in Hampton Roads on Monday evening last, from Pensacola, via Savannah, four days from the latter. Officers and crew all well. The St Louis touched off Havana 30th ult., and understood that the Yellow Fever and Cholera prevailed there to a considerable extent.

The Pennsylvanian does well to remind its readers of the jeers and denunciations which were uttered against the President of the United States a few months ago, because, in reply to the incessant and impertinent applications of intrusive committees to him for relief, he was alleged to have advised them to apply to the United States Bank, and ask it not to oppress the community. The President's advice, says the Pennsylvanian, "was scouted and derided as that of an ignorant old man, who knew not what he said. But Congress adjourned without complying with the views of the Bank, and lo! we see the merchants following the advice of the President implicitly. *They do go to the Bank! go to the monster! go to Biddle, and ask him not to oppress the community any more.* Mr. Biddle himself promises to afford the relief. How much better it would have been if the merchants had followed the correct advice of Andrew Jackson, when it was given, instead of waiting six months."—*N. Y. Eve. Post.*

Thomas C. Powel, keeper of the Eagle Hotel in this city, and late of Petersburg, absconded a few days ago having forged, as we learn, the signature of his father Mr. Edwin Powell, of his brother Mr. Wilson Powell, and of Messrs. William R. Johnson and Peterson Goodwin to negotiate notes, which he got shaved in this city. The loss will probably fall on gentlemen very capable of sustaining injuries of the same sort. We hear of the arrest of another individual charged with similar offences. *Richmond Compiler.*

Scene at the Five Points.—Yesterday, a man named John Freeman, the mate of a vessel, strolled down towards this hell upon earth, and was enticed into a cellar No 66 Grange street. Here he treated the inmates liberally to what they chose drink, and ultimately getting very drunk himself, he fell asleep and was robbed of several dollars which he had about him. He was awakened by the attempt of three negro women to strip him of his clothes; he procured an officer and had them arrested. Their names are Sarah Graves, Isabella Lee and Catherine Smith, and they are all committed for trial.—*N. Y. Trans.*

Stage Accident.—One of the coaches of the Forest line of stages between this village and Charlestown, N. H. was overturned in Milford on Tuesday morning last. The stage at the time contained fourteen passengers, who fortunately escaped without any serious injury, with the exception of Mrs Estey, the lady of Jesse Estey, Esq. of this village, who had one of her arms considerably injured. The accident was occasioned by the giving way of one of the nutts which fasten the wheels upon the axletree.

Hanging in effigy.—We learn that three persons, who are believed by their neighbors to have driven, by their persecution, the late Mr. Nathaniel Colburn of Dedham, to madness, and induced him to commit suicide, were hung in effigy yesterday, in the upper parish of Roxbury. We are told, also, that the excitement against these individuals is so great, that one of them, being a toll gatherer on the Providence turnpike, two hundred persons have pledged themselves not to pass by his gate as long as he is retained in office.—*Transcript.*

The Work Commenced.—We understand the land required for the Branch Rail Road to this village, has been obtained, the road located, and the work commenced in good earnest, under the direction of Mr Turner, the contractor. Creditable to the Irish.—We are happy to record that the Irishmen in this city took no part in the late riots; but, on the contrary, showed a commendable disposition for suppressing them—having, as we learn from the Journal of Commerce, to the number of three or four hundred, waited on the Mayor, tendered their services, and been sworn in as special constables to support the civil authorities.—*N. Y. Trans.*

A Misplaced Puff.—The Journal of Commerce of Wednesday placed a puff of Mr. Bristow, the writing master, under the obituary head. He was quite out of place there, for he could neither use his own hand, nor his fingers, to any advantage, among the grave personages in whose company he found himself so unexpectedly placed.

Mr. Editor.—I would advise any auctioneer belonging to the City, before he comes to this town, to sell property at Public Auction, to read the law in regard to the qualification of an Auctioneer, and see if he is willing to risk the penalty annexed to selling in this town without a license from the Selectmen,—as measures are taking to have those that have, or may in future violate the law in this respect made acquainted with it, by the competent Authority. It is stated by a gentleman in the British military service, who has just arrived from St Johns, New Brunswick, that the cholera has made its appearance at that province. Rumors are afloat also, upon the authority of private letters, of its appearance at both Montreal and Quebec. The recent severely hot weather has doubtless produced many cases of common cholera, and of death from drinking cold water, which have probably been mistaken for Asiatic Cholera.—*N. Y. Times.*

EYE AND EAR INFIRMARY, No. 54 High street. Diseases of the Eyes and Ears, Ulcers in the Head, Pain, Dizziness, Catarrh, and other difficulties of the Head, attended to with safety and success, on reasonable terms. june 6

A. WATKINS, *THOMSONIAN BOTANIC PHYSICIAN—Infirmary, Harvard street, (opposite 499 Washington street,) Boston*—Has been acquainted with and possessed of a right to use Dr. Samuel Thomson's Patent Vegetable Medicine, for the last 21 years, and administered them in Europe, and South and North America, (including the West India Islands,) and with as much success as any other can, (with truth,) boast of. In the nine months' practice he has had at the Harvard street Infirmary, *he has not had the misfortune to lose* ONE *patient*, although many of them had been for years in the hands of the members of the Medical Faculty, and some of them abandoned to their (supposed) hopeless fate. As he is so well known in Boston, it is unnecessary to enter very largely into a detail of success. The following are a few of his patients:—

Stephen Gore, (inquire at Thomas Holland's Beach street, Boston,) totally blind for about 5 months, one eye, nearly destroyed, general debility, legs swollen and lame—appeared completely charged with poisons. General health restored; eye sight good—could see to read (without glasses) in 5 courses, &c. better than he could for seven years previous.

Mr. Parker, now assistant at the Infirmary, rheumatism and dyspepsia, cured in 3 courses.

Francis Kemlo, 153 Court street, Boston, severe indigestion and spasms, cured in four courses, &c.

Thomas Pierson, of Roxbury, and keeps a stall in the new Market, Boston,) erysipelas in the face and one eye; leg very much swollen and ulcerated from the knee to the ancle for the last 25 years—attended by many physicians; nearly cured in 5 weeks.

Miss Charlotte Pierson, do. white swelling, with loss of appetite, &c. under medical treatment 5 months, and unable to walk—cured in 3 weeks.

Jesse Brown, baker, of Roxbury, rheumatic and retrocedent gout; stomach, knees, ancles and toes greatly affected; has been confined to bed nine weeks—cured in 4 courses, &c.

Miss A. Brown, his daughter, scrofula or king's evil, cured with 4 courses, &c.

J. D. Smith, of Lexington, dyspepsia, ofseveral years continuance—cured in 3 courses, &c.

Samuel Hawes, of Weymouth, rheumatism in the back, strictures in the urinary passage, general emaciation, &c.—cured in 6 courses, &c.

S. Smith, calico printer, of *Lynn, pain* in the stomach and back, *and strictures* across the breast, &c.—cured in 2 courses.

—— Toll, of Shepard street, Lynn, fits and severe cholic, from indigestion—cured in 2 days!

Benj. Morgan, of Salem, cancerous or scorbutic humors; hand ulcerated, debility and loss of flesh; piles severe, and unable to dress or undress himself for a considerable time—cured with 5 courses, &c.

Joseph Kerrier, of Salem, rheumatism in his shoulders and arms—cured in 2 courses, &c.

Sarah Town, of Andover, indigestion, severe pains throughout the system, and piles—cured with 3 courses, &c.

Mrs Lucinda Kerr, Sea street, Boston, salt rheum; top of the head one entire scab—cured in 4 courses, &c.

A. W. cannot be at the expense to enumerate more cases, at present. He has not named cases of fevers, they are almost too ephemeral in the hands of a physician acquainted with his duty—the *ignoramus* or continued fever, is unknown in the practice of such. Delicacy will not not permit the naming of several diseases, which he has treated with universal success. In almost all the cases of diseases which have been treated by him, he has been under the necessity to expel not only the disease, but the *poisons* which produced and continued them—and all with INNOCENT and HARMLESS SIMPLES.

This practice induces him to believe he is not too bold in saying, the Thomsonian treatment removes both disease and the poisons af the Medical Faculty from the human system, when resorted to in seasonable time.

For Medicine, Family Rights to use the same, Robinson's Lectures, &c. at the usual prices, apply as above, of

COMPOUND CHLORINE TOOTH WASH, for Cleansing and Preserving the Teeth and Gums, and Cleansing the Mouth.

THE CHLORINE TOOTH WASH effectually cleanses the Teeth, and will answer the purposes of the best dentifrice. It contains no acid, or any ingredient which can in any case be injurious. It will also be found to keep the brush itself free from all impurities.

The Compound Chlorine Tooth Wash has the further advantage of cleansing the mouth also—and of removing whatever is offensive in the breath. It hardens the gums and is a valuable remedy for canker or soreness of the mouth. It may also be used with the greatest advantage as a gargle for sore throat. In fine, it preserves the teeth and mouth in all respects in a clean and healthy condition. It is agreeable to the taste. Gentlemen who are in the habit of using tobacco, will find that the tooth wash will speedily remove all the effects of it from the mouth.

That the public may rest assured of the very salutary effects of this composition, the following recommendations from gentlemen of the highest respectability are submitted.

From J. W. Webster, M. D. Erving Professer of Chemistry in Harvard University.

Harvard University, Cambridge, March 14, 1831.

Messrs. Lowe & Reed. Gentlemen—I have examined the Compound Chlorine Tooth Wash received from you, and have no hesitation in stating my belief that it will answer the purpose for which you have compounded it. I have discovered in it no ingredient which can prove injurious to the teeth.

Yours, &c. J. W. WEBSTER.

From Sylvanus Plympton, M D.

Messrs. Lowe & Reed. Gentlemen—I have frequently administered your Compound Chlorine Tooth Wash in various affections of the mouth and throat—and relief has been immediate and permanent. In a *neuralgic* affection of the face and head, arising from a depraved state of the gums and defective teeth, which resisted many powerful, approved medicines, this *Wash* acted like a charm. I hesitate not to give it my entire approbation for the purposes for which it was made, and consider it one of the most safe, pleasant, and effectual articles of the kind ever offered to the public.

I am yours, &c. S PLYMPTON.
Cambridge, Dec. 9, 1831.

From Mr. A. A. Hayes, Operative Chemist and Superintendent of the Roxbury Chemical Works.

Messrs. Lowe & Reed. Gentlemen—Having examined the bottle of Compound Chlorine Tooth Wash you gave me, and become acquainted with its composition, it affords me pleasure to express my belief, that it well deserves the high reputation it has acquired.—It does not contain any substance in solution or suspension, which can either chemically or mechanically injure the teeth, and observation and experience confirm the opinion that its effects on the mouth are salutary and very agreeable. With respect, A. A. HAYES.

Roxbury Laboratory, Feb. 8th, 1832

Extract from a letter written by Dr. J. C. Warren on the subject, dated March 2d, 1833—

"I find it a valuable invention, especially for vessels, and if it were geneaally used, it might be the means of saving life on many occasions. In regard to health, I believe it to be unobjectionable."

Signed, J. C. WARREN.

Extract of a letter from Dr. Waterhouse, dated August 12th, 1833—

"I have examined andtried your Chair Cushions, filled with grated cork, and am pleased with their neatness, and freedom from any thing like filth. Most people would, I believe, give the preference to those filled with rasped cork. I am pleased with their property of sustaining a person on the water, in case of shipwreck, fire, or explosion, and particularly recommend them for cots in steamboats, and will venture to predict their introduction."

Signed, BENJ. WATERHOUSE

Extract of a letter from Capt Preble, President of the Marine Society, Portland, Me.

"I am perfectly satisfied that it will answer the purpose of a comfortable bed for seamen, and a life preserver in time of shipwreck."

Signed, ENOCH PREBLE.

Certificates of three gentlemen who witnessed the exhibition in Boston harbor—

We, the undersigned, do hereby certify, that we were present at the experiment made by Mr Knapp, on Saturday, the 10th inst., with a Mattrass, filled with grated cork, to sustain a person on the water, from the Castle to Long wharf, which proved successfull to our utmost satisfaction. We are happy to state that we are perfectly satisfied as it respects its property in securing persons from shipwreck as intended. We do therefore recommend their use, particularly to mariners, and venture to say, that their introduction on board of vessels, will prove highly important and valuable hereafter.

DR. WARNER'S PURIFYING VEGETABLE POWDERS, OR FAMILY BITTERS—yielding its strength to Wine or water.

As a security against counterfeits, the label will be signed by the wholesale agent, PARKER BARNES. Likewise the steel plate will be observed, as there is a spurious article, which has been offered to the public.

In the spring of the year, every one is troubled more or less with a propensity to sleep, and by the use of this corrective it can be obviated entirely. For purifying and eradicating all kinds of humors from the blood, even if they appear externally in the face, or any part of the body, it is much better and my more efficacious than any external application; in fact I seldom knew it to fail proving effectual. The patient will find it operates more in the blood than any other preparation they ever referred to; it is far better than salts, sulphur, cream tarter, or any other preparation of this kind, for when the blood is once purified with this corrective, it remains in an even temperature through the summer months. For a foul stomach, jaundice, general debility, weakness of limbs, want of appetite, billious and liver complaints, headach, stupor, &c. For the catarrh, which is generally occasioned by the impure state of the blood, there is nothing extant that has proved so efficacious as this purifying corrective. For all the above complaints it is seldom known to fail in proving an effectual remedy.

It is really worth the public attention, as every one is aware of the unpleasant, dull, heavy feeling, which the spring of the year produces; and by the use of this corrective, it can be obviated entirely. Every one who makes use of the above preparation, will be astonished at the mild and gentle effect it has on the blood.

CERTIFICATES.

This is to certify, that I have been troubled in the spring and summer seasons with a dull and stupid feeling, which very much troubled me while about my business, and by taking some of Warner's Purifying Powders, I have found it a perfect remedy, and with confidence recommend it to others who may be similarly affected. ELIAS PIKE.

Boston, April 16th, 1832.

Joseph Moore, of Boston, certifies that he has taken Warner's Family Corrective, or Purifying Powder for purifying the blood, and curing of jaundice, and likewise removing the propensity to sleep, and has found it an effectual remedy.

April 1st, 1832.

I hereby certify that I have taken Warner's Vegetable Purifying Powders for the cure of the jaundice; likewise for purifying the blood, and removing the propensity for sleep which I am always troubled with in the spring of the year. From the benefit which I have received for the above complaints, I cordially recommend it to all that may be similarly affected.

JOHN B. FINN.

Feeling grateful for the benefit which I have received from taking Dr Warner's Vegetable Bitters, for the cure of the jaundice, weakness of the limbs, want of appetite, indigestion, &c. do recommend it as a safe and efficacious remedy for the above complaints. P. COFFIN.

Boston, March 1, 1833.

Other reference to its efficacy may be had by calling on the agent. To be had at wholesale of my sole agent in this city, PARKER BARNES, No 424 Washington street, and retailed by all the principal Druggists, in Boston and vicinity. a116mo

These baths are well known to the medical faculty as being patronized by the most eminent Physicians of Europe and Asia, and are considered in the Oriental Empires as the greatest luxury they enjoy, being a preventive as well as a cure of contagious diseases—and they are now introduced in the United States in a new and perfect form, and with the greatest confidence of success. These Baths are medicated according to the disease—they are now open to the public, and will be administered to families or individuals, under the direction, or according to the prescription of their physician.

Dr. M. will personally superintend the various Baths, and attend to the prescriptions of the Medical Gentlemen in behalf to their patients.

Without boasting of the cures that have been performed, or pretending to any wonderful knowledge, he would merely say, he would be happy to render the Baths, and the system of Medicine itself, useful to the high Medical Talent of Boston, leaving it to an enlightened public to decide.

Those spacious premises have been fitted up with great expense, at the corner of Lynde and Cambridge streets, and other places have been purchased to be fitted up as auxiliary establishments. It may be proper to state, that no mercury or mineral preparations are used—no hot medicines, or cold water—but it is, in fact, a union of the simples of the Materia Medica with the Herbal Medica—therefore called Vegetable.

Teeth and Corns, he will undertake to extract scientifically; Bunions on the joints, compound or cancerous Toe Nails, and other diseases of the Feet, diseases of the Eyes, &c.

Male Patients only attended to by me. Mrs. Mott, the Females and Children. No out door cases can be attended to.

INDIGESTION, JAUNDICE AND BILIOUS COMPLAINTS. ANDERSON'S VEGETABLE ELIXIR, *for Dyspepsia or Indigestion, Jaundice and Bilious Complaints; weakness of the Stomach and Bowels, and consequent loss of appetite; nervous complaints, headach, sour stomach, flatulence and habitual costiveness.*

This medicine is composed entirely of vegetable substances, is perfectly safe in its operation, and may be given to children or persons of the most delicate habit, without the least risk of inconvenience.

The uniform success which has attended the use of it where it has been extensively used, in Boston and various other parts of the United States, and in the West Indies, attested by disinterested and highly respectable persons, affords, next to a trial of the medicine itself, the best commentary upon its virtues, and the best recommendation which can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who had suffered severely from indigestion for three years. "During this time, I suffered very much from mental depression, constant pain in the head and breast, and side, sharp shooting pains over almost the whole system—the food that I ate *seemed* to pass into my lungs and there remain, giving me great pain attended with a strong degree of heat. At times, I suffered so much from the pain of indigestion as to be confined to the bed for two or three days. During one of these most severe attacks, I was induced by the advice of a friend to try your Vegetable Medicine. In the course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on the least feeling of any thing like indigestion or pressure on the stomach, to take about a table spoonful of it, which, in the course of a few hours, completely restores me. It has had with me a very wonderful effect, in strengthening the stomach and invigorating the whole system, and judging by my own case, I consider it in all diseases connected with the digestive organs, to be a very valuable medicine.

It has been found singularly efficacious in cases of the most obstinate headache.

It is put up in large bottles containing a pound and a half: and sold at *seventy-five cents* each, by Jonathan P. Hall, Jr., No. 1, Union street, John P. Whitwell, Milk street, John I. Brown, near Boylston Market, Erastus S. Holden, near the Western Avenue, Richard A. Newell, Summer street, Boston; Samuel Kidder & Co. Charlestown; E. G. Lemon, Roxbury.

IRON SAFES.—S. A. & W. G. PIERCE, Agents for selling Gaylor's Patent Double Fire Proof Wrought Iron Chests and Safes, 370 Washington-street, have now on hand a large assortment, comprising all the sizes and kinds which are calculated for the use of Banks, Insurance Offices, Town Records, Merchants, and others.

The above Chests are double throughout in all their parts, with double doors, each secured with Chubb's Patent Detector Locks, which *cannot be picked*; and the Chests are as completely Fire Proof as any vault or chest can be made. Proof of which can be seen by those who will take the trouble to call at the Agent's Store and examine a Double Chest which has passed through a very severe fire, and preserved a valuable lot of books and papers, belonging to John S. Abbott, Esq., whose name is attached to the following certificate:

"This is to certify, that one of the above described Double Safes, which I purchased of the Messrs. S. A. & W. G. Pierce was in my office in this town when the office was burned on the 2d day of November last—the building was of two stories, wooden, and large. The Safe, weighing 700 lbs. fell from the second story into the cellar, and was exposed to an intense heat for nearly three hours. It was for a long time literally *red hot*. It contained all the account books, notes, and court-papers, that were in my office; and no paper was in the least degree burnt or rendered illegible. JOHN S. ABBOTT.

Thomaston, January 8th, 1834."

The above Chest, and some of the papers which were in it at the time of the fire, are now at the Agents' store, corner of Essex and Washington streets, and any individual or corporation who are about purchasing Iron Safes for the protection of their books and papers, will find it for their advantage to call and examine them,and they will be perfectly satisfied that Gaylor's Double Safes are what they are represented to be—FIRE PROOF! and they will be still further satisfied that none other but the Double Safe would stand a severe fire.

Gaylor's Double Safes are a Patent article, and can only be legally purchased in this city of S. A. & W. G. PIERCE, who are his authorized Agents. tf—jan 31

BLACKING.—Liquid, Paste, and Sponge—also a leather preservative, comprising all the kinds now in use, are manufactured and for sale at the Blacking Establishment, head of the Western Avenue.

KNAPP's JAPAN LIQUID BLACKING, three sizes in stone jugs. The proprietor has the pleasure to inform the public that from long experience in the business, he has been able to make great improvements in the article, so much so, it is believed, no other kind approaches near it in quality, with the exception of Day & Martin's, which by many is not considered so good. A small quantity, made expressly for retailing, now on hand, and offered to the public on reasonable terms—warranted to give the most entire satisfaction. The smallest orders gratefully received.

KNAPP'S CONDENSED OIL PASTE BLACKING, is offered as above, by the single box, dozen, or cask. This article is pronounced by the most competent and disinterested judges to be superior to any other kind now known in this market; and warranted to give satisfaction, or money refunded to the purchaser. It is prepared with *oil*, and its shining qualities are believed to be unequalled. It will be sold on liberal terms, and to wholesale dealers in the article, the discount will be satisfactory.

KNAPP'S JAPAN SPONGE BLACKING, for sale as above, by the barrel, gallon, or dozen. It is sufficient to say of this article, it sustains the highest reputation of any article of the kind manufactured in this part of the country, and it is the intention of the manufacturer to spare no pains or expense in the preparation of the same.

KNAPP'S LEATHER PRESERVATIVE, for sale as above, (indispensable to every man who regards his health or economy.) First, it renders the leather impervious to water, also makes it soft and pliable, and of course prevents it from cracking which is the first symptom of decay in leather. It is believed that one pair of boots with this article applied properly, will wear as long as two with nothing of the kind used on them; and for the preservation of leather, should be used in summer as well as winter. july 22

MARSHALL'S FLUID EXTRACT OF SARSAPARILLA, for the cure of Obstinate Eruptions of the Skin, Pimples or Pustules on the Face, Biles which arise from an impure habit of body, Scaly Eruptions, Pains in the bones, Chronic Rheumatism, Tetter, Scrofula or King's Evil, White Swellings, Syphilitic Symptons, and all disorders arising from an impure state of the blood, produced either by a long residence in a hot and unhealthy climate, the injudicious use of mercury, &c.

It has been a desideratum with Physicians and patients, to obtain *an active preparation of Sarsaparilla* in a convenient and portable form. Since Dr. Hancock's publication in the London Medico Botanical Transactions, and Mr. Hodgson's recent Paper in the Journal of the Philadelphia College of Pharmacy—denying the efficacy, and asserting the inertness of any *Decoctions, Syrups*, or *Compound Fluid Extracts* made by long and continued boiling; I have been induced to prepare a Concentrated Compound Syrup of Sarsaparilla, by a process peculiar to myself; and, aided by a powerful hydraulic press, have succeeded in obtaining a more efficient and active preparation than has ever heretofore been manufactured.

This very convenient and active Syrup is now with confidence offered to the Medical Profession and the public, as possessing in an eminent degree all the active properties of the Sarsaparilla in its most concentrated form.

One pint of the Syrup thus prepared contains the active principle of two pounds of Sarsaparilla. One fluid ounce is equal in strength to one quart of the decoction of the London Pharmacopæia or the Lisbon Diet Drink.

This article possesses an agreeable and pleasant flavor—and the most delicate and fastidious stomach will bear it conveniently.

PATENT CORK FOR COLLARS AND SADDLES.—The American Cork Company offer for sale, ground or grated Cork for stuffing Horse Collars and Saddles. The utility of the article has been fully tested, the past year, in a great number of cases where horses' breasts had become sore and inflamed by the use of the ordinary collars.

It has been proved beyond a doubt, to surpass every other substance that has yet been known or used for that purpose.—The fact that it will not become matted, and is a non-conductor of heat, must convince every person of its value. But one farther advantage is, these Collars fit the breast of a horse immediately on their application, which is not the case with any other material. A certificate as to the utility of the article, is subjoined.

"We the subscribers, having made or used the Cork Horse Collars, made from ground or grated Cork, are fully satisfied that they surpass collars made of hair, wool, or any other substance whatever that we have been acquainted with, for the following reasons:—First, the elasticity is sufficient; secondly, it being a non-conductor of heat, does not heat the breast as all other substances do; thirdly, it fits itself to any horse's breast immediately on its application; and fourthly, it has cured every horse's breast we have applied it to, or known it to be done."

Boston, Sept. 3d, 1833.

Signed, PETER STEVENS, Stage Proprietor.
HENRY A. HOVEY, Manufacturer.
E. W. LAWSON, Stage Agent.
O. B. KNAPP, Collar Maker.

The article is manufactured at the Company's Warehouse, *Head of the Western Avenue, Boston*; put up in sacks of 10,-15 and 20 lbs. each, and sold by DAVID LEWIS, dealer in Saddlery Hardware, No. 38 Kilby-st. HENRY KNAPP, General Agent for the United States. eopitf—mar 25

PURE BEAR'S OIL may be had by the groce, dozen or single bottle, of A. BOYDEN, Hancock-st.

As in all cases, so especially in this, Venders, if they wish to secure the patronage of the public, should be extremely cautious not to sell an article for the Hair which tends to counter act rather than assist nature,

The virtues of *Bear's Oil* have been too long tested to need any eulogium; and at this time no one can doubt of its being the very best article for strengthening and promoting the growth of the Hair. An honest prejudice against the use of Bear's Oil has long existed, arising from two causes—the improper method of purifying it, and the imposition upon the public of a spurious article. That this prejudice may be wholly removed, this article now offered is warranted the pure Oil, rendered more pleasant by the addition of a little perfume—and the possibility of its injuring the Hair is entirely precluded by the manner in which it has been purified. To prevent fraud, the genuine is enclosed in two wrappers, the inside one being signed *Arnold Boyden.* aug 15

POSITIVE, OR NO PAY.—*Mrs. Hill's Cough Drops, or Vegetable Health Restorative.*—Prepared entirely from Vegetables.

More than forty years have now elapsed since the receipt was given me by my uncle, a celebrated Physician, at a time that I was troubled with a very bad cough and cold. After taking one dose, I found immediate relief, and a few doses cured me entirely; the effects were astonishing quick, and the numerous instances of the wonderful efficacy of these drops on different people, has induced me to put them up in Phials, with directions, under the impression it would be a public benefit. And as that is my sole aim—and to convince the public that is all, and as a sure guarantee against quackery and deception, I authorise my agents to return the money to all those that do not get relief by their returning the bottle and directions. The relief and absolute cure, particularly of those numerous and complicated disorders arising from neglected colds, is amply attested by the acknowledged approbation of those who are now restored to perfect health, as well as many in the decline of life who frankly acknowledge having received great relief from the use of them in the following diseases, viz:—Coughs, Colds, Asthma, Spitting of Blood, Hooping Cough, Difficulty of Breathing, Influenza, Quinsea, Phthisic, Croup, and all disorders arising from colds. Price 37½ cents per bottle.

For sale wholesale and retail by J. P. Hall, Jr. sole agent, No. 1 Union street, corner of Elm street; Asahel Boyden, Hancock street; Charles Holbrook, Leverett street; E. S. Holden, corner of Beacon and Charles streets; A. Geyer, Hanover st.; John White, Jr. School st.

Also retailed by most of the Apothecaries and country stores throughout the country. jan 26

INDESTRUCTIBLE BLACK WRITING INK. It is known that Chlorine, (muriatic acid diluted with water) when passed with a feather of a quill over writing made with common Ink will destroy it, and the same place can be again written on, and the date, sum, or condition of any writing or agreement be altered. This valuable Ink has been tested chemically, and is found to be indestructible by the action of any known acids. Any chemical agent, which removes this ink must also remove the paper upon which it is written. This property, rendering it inaccessible to the arts of forgers and counterfeiters, is an extremely valuable one, and one which addresses itself to every Banking and other Corporations, and to every citizen of the Mercantile and Professional community. It is now offered for the public use; and the proprietor only asks a fair trial of its merits.

This ink is now used in the Office of the Government of the State of Maine by many eminent Lawyers and Public Officers, and by most of the Merchants of Portland, who are desirous to have their accounts unalterable. This Ink has also been highly approved of by all the Professors of Bowdoin College, and the certificate of Professor Cleaveland, a distinguished chemist, is hereunto annexed:

'Brunswick, June 6, 1834.

'It is hereby certified, that Mons. Le Bron has requested me to examine some ink of his manufacture, with reference to its power of resisting the action of chemical agents. I found its power of resisting chlorine and solution of Potassa, decidedly superior to any record ink with which I am acquainted.

(Signed) PARKER CLEAVELAND.'

It is the oldest establishment of the kind in the State—Mr B. having followed the business for more than thirty years—during half of which time Mr Foster has been making them on Mr Beath's plan, and others of approved kinds. Although not followed it steadily and exclusively, he has made them for himself 15 years past, and for individuals who he is at liberty to refer to. Mr F. having been severely afflicted with the disease himself, since the age of 12 years, considers himself as possessing a thorough knowledge of the business. All Trusses made and sold by him, will be warranted to keep the protruded parts within the cavity of the abdomen.

Among the variety of Trusses made by Mr Foster, are *Patent Elastic Spring Trusses*, with *Spring Pads*;—Trusses without steel springs; these give relief in all cases of rupture, and in a large portion produce a perfect cure. They can be worn day and night. Improved *Hinge and Pivot Trusses, Umbilical Spring Trusses*, and Trusses with *Ball and Socket joints.*—Trusses for *Polapsus Ani*, by wearing which, persons troubled in that way, can ride on horseback with perfect ease and safety. Mr F. will wait on individuals at their houses when preferred—he takes measure of infants at any age, and makes Trusses for both double and single ruptures, which may be worn without pain or inconvenience, and which in many cases will produce a perfect cure, in the space of six or twelve weeks, in such little children; he has had occasion to make a number of late, the Fathers and Mothers of which he will refer to, as well as the Physicians by whom they were recommended to Mr Foster.

Individuals purchasing Trusses of the subscriber, which fail in answering the desired purpose, are respectfully invited to call and exchange them for those that will, and for which there will be no extra charge.

Surgeon's Instruments, and Trusses repaired at the Manufactory.
